# WOOD Hodegavl

Monteringsanvisning / Assembly instructions

1

NO Marker på veggen hvor vegglistene skal monteres. Ønsker du at nedre kant på gavl og seng er på samme nivå skal vegglistenes skruer settes 103 cm opp fra sengens nedre kant. Viktig at listene monteres i vater og at de fordeles jevnt slik at alle gavllistene hviler på vegglistene.

ENG Mark where the wall attachment lists will be placed. If you want the lower edge of the the headboard in the same level as the lower edge of the bed, the screws for the lists should be placed 103 cm above the lower edge of the bed. Make sure the wall lists are level and evenly mounted to support every headboard attachment list.

2

NO Heng gavlen på vegglisten.

ENG Mount the headboard on to the wall attachment list.
